GREAT AMERICAN REMEDY.

VEGETABLE DYSPEPSIA BITTERS, a sure, speedy and permanent cure for Dyspepsia in its worst forms. This medicine will be found to cure all complaints arising from disorders of the stomach, biliousness, yellowness of the skin, Liver complaints, Debility, Headache, Neuralgia, Loss of Spirit, &c. Publication of the Heart, Constipation, &c. &c. Please read the following extract:

Read the following from an eminent physician: "The undersigned being acquainted with some of the ingredients of Hatchings' Vegetable Dyspepsia Bitters, and having used it for some time, find his practice with every desired effect, he recommends this medicine from the certainty of its effect, and gives it a preference over all preparations in medicine for that distressing complaint, Dyspepsia."

T. HARDENBERGH, M. D.,
No. 1 Beach street, N. Y.

From Lauder A. Wyman, Esq., late President of New York Medical Society, now of Brooklyn:

The undersigned was afflicted with Dyspepsia of the worst form for one year and a half, during a greater portion of which time he made use of no remedies, but suffered the disease to take root of itself, until he was recommended to try Hatchings' Dyspepsia Bitters, he very soon derived benefit from the use of a few bottles of this medicine, and now considers himself entirely well.

The undersigned has every confidence in the efficacy of Hatchings' Bitters for the cure of this troublesome and dangerous complaint, and has no hesitation in recommending it as a most valuable medicine.

L. B. WYMAN,
N. Y., Sept. 8, 1849. 35 Beach St.

The following certificate is from Mr. Brady, the celebrated Daguerreotypist:

Having been afflicted very severely with Dyspepsia, together with extreme weakness he was advised to take Hatchings' Dyspepsia Bitters, and have every reason to believe it has perfectly cured me. I have no reason to suspect a return of the disease and believe from the effect it had on me that it will cure the worst case of Dyspepsia.

M. B. BRADY,
No. 25 Broadway, N. Y.

The Proprietor of this medicine has received many favorable certificates from men, generally, of the various diseases for which this preparation is applicable; but the above are deemed necessary to satisfy any unqualified mind of its efficacy above all other preparations.

DRAWING—ARCHITECTURAL and MECHANICAL.—As this is the season for young mechanics and others to apply themselves to the attainment of the greater, and to the entire knowledge of geometrical Drawing, we would call their attention to "Manie's Text Book of Self-instruction," being a complete manual of Mechanical Drawing, including Geometrical Drawing and Perspective, illustrated with 56 steel plates, and explained in a familiar manner, rendering the attainment of the art easy and agreeable.

From the New York Scientific American.

It is the best work on Drawing that we have ever seen; to young Mechanics such as a Mechanist, Cabinet Maker, Millwright or Carpenter, would call their attention to "Manie's Text Book of Self-instruction," being a complete manual of Mechanical Drawing, including Geometrical Drawing and Perspective, illustrated with 56 steel plates, and explained in a familiar manner, rendering the attainment of the art easy and agreeable.

From the Baltimore Western Continent.

He, who having thoroughly mastered this book, cannot make any of the ordinary drawings of this kind, may well despair of ever being able to accomplish such a result.

From the National Entomologist.

Indeed, one who patiently and carefully goes through it could not be said, so far as perspective and mechanics are concerned, any longer to want a master."

From the American Railroad Journal.

It is recommended to those best qualified to judge of its merits, as being the most thorough and complete work of the kind ever published in this country."

It has received universal commendation from the press, and we believe that it merits all that has been said in its praise. Price \$2.00.

PARTICULAR NOTICE.

We will forward a copy of the above work free of expense, to any part of the Union, on the receipt of three dollars, which may be sent by mail at our expense.

HARNDEN & CO'S

Passage arrangements for 1850.

Reduced Rates of Passage from Liverpool

to Boston, by their Regular Line of Packets

sailing from Liverpool on the 1st, 7th, 13th

19th, and 25th of each month. Also, from

Liverpool to New York, by the regular line

of Packet Ships sailing from Liverpool on

the 1st, 11th, 16th, 21st, and 26th of each

month. The splendid Ships composing this

Line have been built expressly for this trade

are commanded by men of long experience,

their accommodations are comfortable, and

they are in all respects desirable conveyances

for Passengers. Persons wishing to

send for their friends in Ireland, England

Scotland, Wales, can do so through our

subscribers. Particular attention will be paid

to the accommodation and good treatment

of passengers.

The advantages offered by this Line over

all others are the following, viz.: That the

ships selected by Harnden & Co. for the

conveyance of their passengers, cannot be

surpassed by any out of the United States;

on this point no better evidence can be

offered than the fact of the hundreds of ships

despatched by them, not one has ever been

lost! Passengers will be brought by this

Line at very low rates. Parties holding

Harnden & Co.'s Passage Certificates will not

be confined to one ship a month in Liver-

pool, but have the privilege of embarking

in any of the vessels sailing every week.

Harnden & Co. have Agents in all the

principal seaport towns of Ireland, who

take charge of their passengers, and protect

them from the frauds practised upon the inexperienced.

Harnden & Co., wishing to conduct their

business upon principles of fairness and

equity, to prevent fraud and deception, have

but one price for passage, which in all cases

includes Hospital fees and provisions, ac-

cording to law. Prepaid passengers al-

ways have the preference over passengers

paying in Liverpool, & those applying by

letter or telegram. Those applying by

letter or telegram for Certificate of Pas-

sage, should in all cases furnish the names

and ages of the persons sent, with their

address in full, containing the name of the

town and, nearest post town, and county,

together with a letter to the Proprietor, to

enable him to make the necessary ar-

rangements for the embarkation of the pas-

senger. The Proprietor will then issue

the Passage Certificate, and the passenger

will be ready to proceed on his journey.

Passenger's money will be sent to the pas-

senger's account, and the amount will be

deducted from the passage bill.

Passenger's baggage will be sent to the pas-

senger's account, and the amount will be

CONGRESS.

WASHINGTON, Feb. 27.—In Senate to-day, Mr. Clay's resolutions were taken up, and Mr. Benton made a brief and conclusive argument, showing that slavery does not exist in California and New Mexico, quoting the Spanish Laws thereupon.

Mr. Ilkley moved that the river Rio Grande be decided upon as the western boundary of Texas, but gave way to a motion for adjournment.

House.—The House went into committee of the whole on the President's Message. Mr. Younce, of Georgia, presented the usual Southern arguments on the slavery question, with apparent fairness. He said the South would abide by the constitution until argument was exhausted, and then would resort to arms.

Mr. Baker, of Illinois, followed, and proved by Southern admissions, the constitutionality and justice of slavery prohibition in the new Territories and States. On his interrogating Mr. Younce and other Southern gentlemen whether, if the Wilmot Proviso passed, they would dissolve the Union if they could, Mr. Bocock, of Virginia, replied, that in that case, he would introduce a resolution declaring the Union to be dissolved. Mr. Baker showed that such a resolution would amount to nothing. The North would not fight to extend and support slavery. Col. Baker defended his State and the course of his colleagues.

Mr. McJane, of Maryland, vindicated his course. The Democratic party would not be dissolved. If the Missouri line was not adopted, they would extend the line of Texas to California. Mr. Conrad of Louisiana, took the floor, when the House adjourned.

Sun-MARINE TELEGRAPH.—The Paris Press devotes more than two columns to the details connected with the project of a submarine electric telegraph "between France and England, for which Mr. Brett has obtained a privilege, of 10 years from the French Government. It appears from this account, that the contract binds Mr. Brett to have the telegraph completed by the 1st of September next; but the French Government reserves to itself the right of stopping the works before the 1st of September, in the event of circumstances occurring to render this measure indispensable. A joint stock company under the name of Brett, Tocher & Co., the seat of which is to be at Paris, has been formed with a capital of \$500,000, but Mr. Brett undertakes to complete the telegraph across the Channel for \$39,000. The two points fixed upon are Cape Grisnez, near Calais, and the Shakespeare Cliff, near Dover. The distance between these points is only 18 miles English, but the line of telegraph, consisting of copper wire properly covered, is to be 23 miles, to allow of oscillation.

We learn that when the news of the last steamer from California was received in New Bedford two carrier pigeons were despatched to Nantucket, in advance of the boat, with an abstract of the most important particulars of the intelligence. One of the birds arrived safely at Nantucket. The other, driven by the winds out of its course, and becoming confused, turned its wings towards Falmouth, and took refuge in the house of a Mr. Lawrence, who is in California. The despatch was eagerly taken possession of by the family, who thus obtained news two days in advance of a letter from the absent husband and father.

The heater, after a short tarry, was dismissed by his hospitable entertainers and, as supposed, returned to New Bedford. —*Sandwich Observer.*

TEABLE RAVAGES OF THE CHOLERA IN THE INTERIOR OF LOUISIANA.—The Jefferson (La.) Tribune of the 6th inst. has the following:

"The cholera has again made its appearance on the plantations on the opposite side of the river. Mr. James Snodgrass, on hearing that one of his negroes was attacked, immediately hurried to his relief. This was on Saturday evening, the 27th ult.; on the following Wednesday morning, at about 8 o'clock, he was suddenly seized by the disease, and by 8 o'clock he was dead. Seven six or eight of his negroes have died. Mr. Warren Bent has also we learned, lost some six or seven valuable negroes, and one or two are now lying ill, of the recovery of whom but slight hopes are entertained. Two or three white men have died of the disease, whose names we have not learned."

GREAT BURGLARY IN PITTSBURG.—The Jewelry store of Henry Richardson 21 Market street, Pittsburg, was entered on the 22d inst., and robbed of about eighty gold watches and a considerable amount of Jewelry. A reward of \$500 is offered for the recovery of the property.

MONEY DIGGERS.—A company of colored men are digging near Rochester for hidden treasure. One of their number stands with a drawn sword upon the heap of earth thrown up from the excavation.

FREE SUFFRAGE IN NEW-JERSEY.—The Judiciary Committee of the New-Jersey House of Representatives have reported in favor of amending the Constitution of that State by striking therefrom that feature which recognizes color as a prohibition to the exercise of the Elective Franchise.

Our readers will be gratified to hear that the Rev. John Pierpont, of Boston, intends to deliver two lectures before our citizens, on Wednesday and Thursday evenings of next week, the subject the Benefits of Life Insurance, it is a subject to which Mr. P. has devoted particular attention. We trust that his well known ability in an interesting and popular lecturer will secure him a numerous audience.

This is a subject that has attracted much attention in the world, during the last few years, and particularly in this country; we hardly take up a paper that does not contain some notice of its practical benefits, or an announcement of the death of some person who, by his prudence and foresight in insuring his life, as it is termed, has thus kept his family in very comfortable circumstances; the advantages of life insurance are so palpable, that it is indeed a matter of astonishment that every prudent man of limited means, does not at once avail himself of them. We hope to see more attention given to this subject by our citizens than heretofore.

We are indebted to Hon. George S. King, M. C., for a copy of the appendix to the Congressional Globe, containing Mr. Clay's Compromise resolutions, and speech in the Senate.

We have received from Young's Variety Store, a beautifully painted engraving of the crucifixion of Christ, also a representation of a Single Gentleman; they are both finely executed. Mr. Young has just received 1010 paintings on various subjects, which he is disposing of at very low prices. Most of the pictures were painted at Kellogg's in New York, which is enough to recommend them to the notice of every one.

By the letter in another column we recognise a former correspondent of the News. We shall be glad to hear from him again.

Park Benjamin, Esq., delivered his lecture on Popular Amusements in Providence on Wednesday night; he also delivered the same lecture in Fall River last night.

Rhode Island.—Considerable curiosity and suspicion have been awakened, within a few days, with regard to the fate of the steamer Rhode Island. Benjamin Boyd, the second mate, was arrested in New York on Monday. In his possession was found two quadrants, one, it is alleged, belonging to the captain, and the other to the chief mate; and he has been consequently committed for examination. His arrest was made in consequence of a singular and suspicious variation in his story that which had been related by the other survivors.

CIVIL GOVERNMENT IN NEW-MEXICO.—J. S. Calhoun, Esq. Indian Agent at Santa Fe, in a letter dated Santa Fe, Nov. 26, says:

The public mind in this territory is now agitated in reference to a Civil Government, and the Controlling powers are opposed to a State organization, but their numbers are daily diminishing, and I think we shall have a Convention to frame a Constitution in January. The first number of the "New-Mexico" will be issued on Monday, 26th inst., which will advocate the formation of State Government. As yet there is no other press in this Territory.

MURDERS AND ROBBERIES.—By wild Indians and all sorts of people, are of daily occurrence, and elsewhere no people have suffered as much for the want of a good Government; but it is hoped that in a few months many of the evils of which we complain will be corrected.

The Senate of Maryland have passed a bill allowing slaves to come into that state without restriction.

FREE SUFFRAGE IN NEW-JERSEY.—The Judiciary Committee of the New-Jersey House of Representatives have reported in favor of amending the Constitution of that State by striking therefrom that feature which recognizes color as a prohibition to the exercise of the Elective Franchise.

Correspondence of the News.

New York, Feb. 28.

Dear "News,"—

I feel just in the vein of writing you a friendly letter, or in other words an epistle to make up of stone; and the only difficulty is, your epistles being rather limited I do not like to trespass on them too largely. And first, I must tell you what delightful weather we are enjoying. It seems to me that brighter, clearer days never blessed the earth, and the air is just keen enough to render riding and walking a positive luxury. The principal streets are thronged with fair pedestrians, a few shopping, and many more house hunting.—Rents having exceedingly advanced, there will consequently be a general moving of our population in May. The present winter has been a most unusually brilliant and gay one in this city and its suburbs, Brooklyn and Jersey City; but the festivities of the season are now somewhat checked by the forty days of Lent, which are very creditably observed by Episcopalian generally. At many of the churches, what are termed by the Methodists, *Recitals*, are being enjoyed, and at the Church of the "Holy Trinity," Brooklyn Heights, on Sunday evening last nearly a hundred young candidates received the rite of confirmation from the hands of Bishop Chace of New Hampshire.

The reign of St. Valentine has passed away at least for this year, although there are still displayed at the windows of the Print stores, a really magnificent display of these sentimental Epistles; whole rows of these particularized and richly adorned missives, hanging like diminutive garments on the biers of the Landress, the various staves combine the satiric, exquisite, delicate and prosaic.

This is a subject that has attracted much attention in the world, during the last few years, and particularly in this country; we hardly take up a paper that does not contain some notice of its practical benefits, or an announcement of the death of some person who, by his prudence and foresight in insuring his life, as it is termed, has thus kept his family in very comfortable circumstances; the advantages of life insurance are so palpable, that it is indeed a matter of astonishment that every prudent man of limited means, does not at once avail himself of them. We hope to see more attention given to this subject by our citizens than heretofore.

LAMENTABLE SUICIDE.—M. George E. Williams, carpet dealer on Westminister street, rashly destroyed his own life Tuesday morning, by taking a large quantity of laudanum. It seemed from a note which was found in his room, that he imagined that every one hated him, and that he was tired of life. It is supposed that he never fully recovered from the effect of a fall into the hold of a vessel some time since, and that reason was not firmly seated upon her throne. The jury of inquest rendered as their verdict "that the said George E. Williams came to his death from the effect of laudanum taken by him when under excitement."—*Prov. Transcript.*

CONGRESS.

WASHINGTON, Feb. 27.—In Senate to-day, Mr. Clay's resolutions were taken up, and Mr. Benton made a brief and conclusive argument, showing that slavery does not exist in California and New Mexico; quoting the Spanish Laws thereupon.

Mr. Rock moved that the river Rio Grande be decided upon as the western boundary of Texas, but gave way to a motion for adjournment.

House.—The House went into committee of the whole on the President's Message. Mr. Toombs, of Georgia, presented the usual Southern arguments on the slavery question, with apparent fairness. He said the South would abide by the constitution until argument was exhausted, and then would resort to arms.

Mr. Bates, of Illinois, followed, and proved by Southern admissions, the constitutionality and justice of slavery prohibition in the new Territories and States. On his interrogating Mr. Toombs and other Southern gentlemen whether, if the Wade-Davis passed, they would divorce the Union if they could, Mr. Beacock, of Virginia, replied, that, in that case, he would introduce a resolution declaring the Union to be dissolved. Mr. Baker showed that such a resolution would amount to nothing. The North would not fight to extend and support slavery. Col. Baker defended his State and the course of his colleagues.

Mr. McLean, of Maryland, vindicated his course. The Democratic party would not be dissolved. If the Missouri line was not adopted, they would extend the line of Texas to California. Mr. Connel of Louisiana, took the floor, when the House adjourned.

SUN-MARINE Telegraph.—The Paris Presses devote more than two columns to the details connected with the project of a submarine electric telegraph between France and England, for which Mr. Brett has obtained a privilege, of 10 years from the French Government. It appears from this account that the contract binds Mr. Brett to have the telegraph completed by the 1st of September next; but the French Government reserves to itself the right of stopping the works before the 1st of September, in the event of circumstances occurring to render this measure indispensable. A joint stock company under the name of Brett, Tuck & Co., the seat of which is to be at Paris, has been formed with a capital of \$50,000, but Mr. Brett undertakes to complete the telegraph across the Channel for \$50,000. The two points fixed upon are Cape Grisnez, near Calais, and the Shakespeare Cliff, near Dover. The distance between those points is only 18 miles English, but the line of telegraph, consisting of copper wires properly encased is to be 23 miles, to allow of oscillation.

We learn that when the news of the last steamer from California was received in New Bedford two carrier pigeons were despatched to Nantucket, in advance of the boat, with an abstract of the most important particulars of the intelligence. One of the birds arrived safely at Nantucket. The other, driven by the winds out of its course, and becoming confused, turned its wings towards Falmouth, and took refuge in the house of a Mr. Lawrence, who is in California. The dispatches were eagerly taken possession of by the family, who thus obtained news two days in advance of a letter from the absent husband and father.

Park Benjamin, Esq., delivered his lecture on Popular Amusements in Providence on Wednesday night; he also delivered the same lecture in Fall River last night.

Rhode Island.—Considerable curiosities and suspicion have been awakened, within a few days, with regard to the true fate of the steamer Rhode Island. Benjamin Boyd, the second mate, was arrested in New York on Monday. In his possession was found two quadrants, one, it is alleged, belonging to the captain, and the other to the chief mate; and he has been consequently committed for examination. His arrest was made in consequence of a singular and suspicious variation in his story from that which had been related by the other survivors.

CIVIL GOVERNMENT IN NEW-MEXICO.—J. S. Calhoun, Esq. Indian Agent at Santa Fe, in a letter dated Santa Fe, Nov. 26, says:

The public mind in this territory is now agitated in reference to a Civil Government, and the Controlling powers are opposed to a State organization, but their numbers are daily diminishing, and I think we shall have a Convention to frame a Constitution in January. The first number of the "New Mexican" will be issued on Monday, 26th inst., which will advocate the formation of State Government. As yet there is no other press in this Territory.

GREAT BURGLARIE IN PITTSBURG.—The Jewelry store of Henry Richardson, 71 Market street, Pittsburg, was entered on the 22d inst., and robbed of about eighty gold watches and a considerable amount of Jewelry. A reward of \$50 is offered for the recovery of the property.

MOSSES DISGRACE.—A company of colored men dredging near Rochester for hidden treasure. One of their number stands with a drawn sword upon the heap of earth drawn up from the excavation.

The new Pasha of Egypt has ordered a set of elegant equipages to be built for him in the United States, to be ready during the coming Spring.

FRIDAY MORNING, MARCH 1, 1850.

WHIG NOMINATIONS.

FOR GOVERNOR,
HENRY B. ANTHONY,
of Providence.

FOR LIBERTY GOVERNOR,
THOMAS WHIPPLE,
of Cossatot.

FOR SECRETARY OF STATE,
CHRISTOPHER E. ROBBINS,
of Providence.

FOR ATTORNEY GENERAL,

of Bristol.

FOR GENERAL TREASURER,
STEPHEN CAHOONE,
of Newport.

OUR readers will be gratified to hear that the Rev. John Pierpont, of Boston, intends to deliver two lectures before our citizens, on Wednesday and Thursday evenings of next week, the subject the Benefits of Life Insurance, it is a subject to which Mr. P. has devoted particular attention. We trust that his well known ability as an interesting and popular lecturer will secure him a numerous audience.

This is a subject that has attracted much attention in the world, during the last few years, and particularly in this country; we hardly take up a paper that does not contain some notice of its practical benefits, or an announcement of the death of some person who, by his prudence and foresight in insuring his life, as it is termed, has thus kept his family in very comfortable circumstances; the advantages of life insurance are palpable; it is indeed a matter of astonishment that every prudent man of limited means, does not at once avail himself of them. We hope to see more attention given to this subject by our citizens than heretofore.

We are indebted to Hon. George S. King, M. C., for a copy of the appendix to the Congressional Globe, containing Mr. Clay's Compromise resolutions, and speech in the Senate.

We have received from Young's Variety Store, a beautifully painted engraving of the crucifixion of Christ, also a representation of a Single Gentleman; they are both finely executed. Mr. Young has just received 1000 paintings on various subjects, which he is disposing of at very low prices. Most of the pictures were painted at Kellogg's in New York, which is enough to recommend them to the notice of every one.

By the letter in another column we recognize a former correspondent of the News. We shall be glad to hear from him again.

Park Benjamin, Esq., delivered his lecture on Popular Amusements in Providence on Wednesday night; he also delivered the same lecture in Fall River last night.

The first number of the "New Mexican" will be issued on Monday, 26th inst., which will advocate the formation of State Government. As yet there is no other press in this Territory.

Murders and robberies, by wild Indians and all sorts of people, are of daily occurrence, and elsewhere no people have suffered as much for the want of a good Government; but it is hoped that in a few months many of the evils of which we complain will be corrected.

FREE SUFFRAGE IN NEW-JERSEY.—The Judiciary Committee of the New-Jersey House of Representatives have reported in favor of amending the Constitution of that State by striking therefrom that feature which recognizes color as a prohibition to the exercise of the elective franchise.

(Correspondence of the News.)
NEW YORK, Feb. 28.

Dates "News," &c.

I feel just in the vein of writing you a descriptory letter, or in other words an epistle up of news; and the only difficulty is your columns being rather limited; I do not like to trespass on them too largely. And first, I must tell you what delightful weather we are enjoying. It seems to me that brighter, clearer days never blessed the earth, and the air is just keen enough to render riding and walking a positive luxury. The principal streets are thronged with fair pedestrians, few shopping, and many more house hunting.—Real estate having exceedingly advanced, there will consequently be a general moving of our population in May. The present winter has been a most unusually brilliant and gay one in this city and its suburbs, Brooklyn and Jersey City; but the festivities of the season are now somewhat checked by the forty days of Lent, which are very creditably observed by Episcopalians generally. At many of the churches, what are termed by the Methodists, Revivals, are being enjoyed, and at the Church of the "Holy Trinity," Brooklyn Heights, on Sunday evening last nearly a hundred young candidates received the rite of confirmation from the hands of Bishop Chase of New Hampshire.

The reign of "St. Valentine" has passed away at least for this year, although there are still displayed at the windows of the Print stores, a really magnificent display of these sentimental Epistles; what rows of these parti-colored and richly adorned missives, hanging like diminutive garments on the lines of the Landress, the various stanzas combining the epithet, exquisite, delicate and prosaic.

I have recently made a tour through Greenwood Cemetery; it was a peculiar fancy, I admit, to visit this spot in the frosty month; but I had a desire to see the justly celebrated Monument erected to the memory of Miss Canda. I wish I could describe it in detail, but must defer it at least for the present, the jumpe stone and sculptured marble columns attest how glorious will be its final finish, and full development. The sad story of her sudden and early death is familiar to all; and this costly obelisk is erected to the remembrance of one who passed away in the very fullness and maturity of life and beauty; leaving only the gentle memories of her loving spirit to refresh the stricken hearts of hundreds of friends. Greenwood does not look lonely even at this desolate season, the view is less obstructed of Ocean's crested wave, and the sunset clouds of this month are occasionally gorgeous in the extreme. And then the few simple wild flowers that bloom along its way sides, and cluster lovingly up the base of the trees, as though gently weeping the slumbering dead beneath, can only be gazed upon during this, and the coming month. As I wandered through this lone, but sacred resting place, I fancied, that the winds of Heaven, were over its angel guardians; that its towering mountain would perpetually remain its altar of consecration; and the painted clouds, ever continue its rich canopy of beauty.
